Greetings to whom it may concern,

Please accept this letter and the enclosed resume as my application for this position.

As a recent Computer Science undergraduate foundation student of Staffordshire University, I have solid knowledge of a variety of operating systems, software development tools, and networking and file systems as well

as practical experience in these areas. In addition, I found that my problem-solving, trilingual skills were enhanced by working as part of a team and by considering other people's ideas.

I am actively seeking the kind of challenge offered by working for a technically innovative firm that is small enough

to be flexible in response to the market.

I am eager to have the chance to discuss this position with you in an interview. Please contact me at 0741567306. Thank you for your attention, and I look forward to hearing from you.

Sincerely,

Shevon Ravindran
